⑤ For students

Register

⑤ For teachers

Request access

⑤ Safe & private

Privacy

Elements & actions

① Hero: one-line value and two main actions.

② Value cards explain what makes it different (cited, syllabus-grounded).

③ Four-step "how it works" for first-time visitors.

④ Mini guide to the basic actions; "Try demo" shows a sample cited answer without login.

⑤ Audience cards; teachers register with an invite code. Privacy link for parents/schools.

3 Login /login Public

https://app.example/login

① Value message + preview

Login

Email

Password

☐ Remember me Forgot password?

Login

— or —

Continue with Google

New here? Register

Elements & actions

① Left side repeats the value so visitors remember why they are here.

② Email + password, remember me, forgot password link.

③ Google login optional.

④ After login the user is redirected by role: student, teacher, or admin dashboard.

4 Register `/register` Public

https://app.example/register

Why join: 3 bullet benefits

Create account

Full name

Email | Grade ▾

Password | Confirm password

Language: ○ Sinhala ○ English ○ Mixed

① Teacher invite code (optional)

☐ ② I accept Privacy & Terms (guardian consent if under 18)

Create account

Already registered? Login

Elements & actions

① Teacher invite code upgrades the account to teacher after admin approval; no self-signup as admin.

② Consent checkbox links to the Privacy page; shows guardian-consent text for minors.

③ New students land on a short onboarding (pick language, first unit).

5 Password reset & email verification

`/forgot /reset /verify` Public

https://app.example/forgot /reset /verify

1 Forgot password

Email

Send reset link

Back to login

2 Set new password

New password

Confirm password

Save

3 Verify email

We sent a link to you@mail.com

Resend email | Change email

Elements & actions

① Three small states in one wireframe.

② Reset link expires; show a clear expired-link message with a resend button.

③ Verification can be required before first login.

Skeleton placeholders

Elements & actions

① Designed states avoid dead ends.

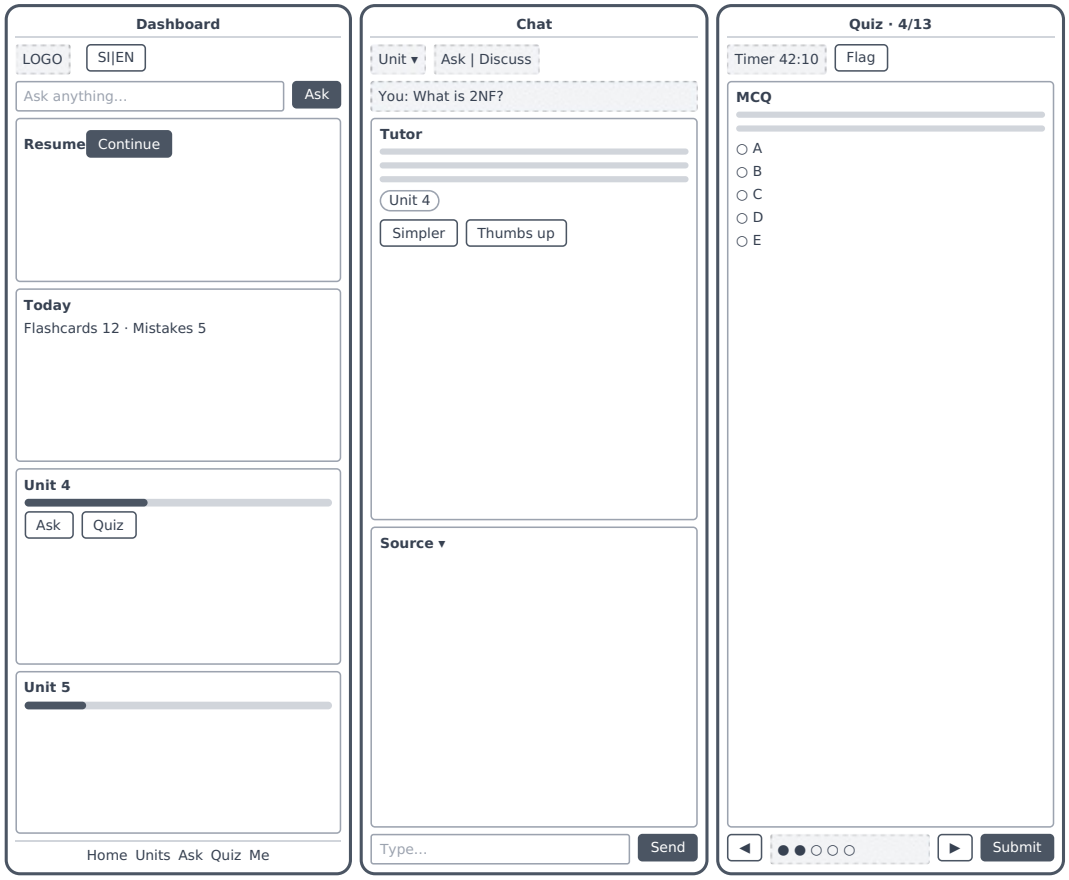

② "Not in syllabus" is a key trust feature of the RAG tutor.

③ Offline state matters for low-connectivity users; cached units and glossary still open.

36 Mobile views (PWA)

Mobile layouts Student

https://app.example/Mobile layouts

Elements & actions

① Mobile-first: bottom navigation (Home, Units, Ask, Quiz, Me).

② Chat keeps the scope and mode toggles at the top; source panel collapses into an expandable row.

③ Quiz uses one question per screen with a large tap area; low-data mode reduces images.
